Face Eruptions Have Deep Significance

Often They Indicate Impurities Deep in the Tissues.

The results shown by S. S. S. in clearing the skin reveal how searching and how deeply this famous blood purifier attacks blood troubles. Facial eruptions are more often significant of impaired nutrition resulting from faulty elimination of body wastes. Most people realize this to be true. And yet it is a difficult matter to convince such people they should avoid those harmful drugs such as mercury, iodine, or potash, arsenic and so on. S. S. S. gives just as good effect without the destructive results, because it is more searching. It goes deeply into the circulation wherever the blood flows, but it does not remain to clog the system. And its effect is complete and thorough as indicated by blood tests. One of the strange things today is that so many people are wedded to the notion that mercury is the one antidote. It is not so. There is in S. S. S. a product of nature that is rated one of the most potent principles known for the complete elimination of blood troubles.

Wherever you go there are people who know this to be true from their own experience, for it has been clearly shown there is one ingredient in S. S. S. as essential to health as the blood is impure as the troubling elements of the grains, sugars and salts of our daily food. Get a bottle of S. S. S. today of any druggist, but insist upon S. S. S., accept no substitute. And if your case is peculiar or of long standing, write to the Medical Adviser, The Swift Specific Co., 101 Swift Street, Atlanta, Ga.

Saturday night, some scoundrel tried to break in the little house where lives "Aunt Carrie" the faithful old colored servant of Mr. and Mrs. Frank Harris. The old woman woke up and screamed, and some one in the vicinity hearing her sent in a fire alarm. The marauder left in a hurry. It has been rumored that "Aunt Carrie" has hoarded up considerable money, and if she has she had better put it in the bank.

OCALA SOCIAL AFFAIRS

(Continued from Third Page)

Morning Session at the Chautauqua

Mrs. Mecca Marie Varney, D. D., national superintendent franchise department W. C. T. U., was unable to fill her appointment this morning at 10:30 o'clock on account of illness, and her place was supplied by Mrs. Vesey, formerly of Chattanooga, but now of Arcadia.

Mrs. Vesey held a heart-to-heart talk, taking as her subject "Christian Motherhood." Nearly forty ladies assembled for the meeting. She is the wife of a Baptist minister and her work has been largely along the lines discussed. She is a woman of unusually charming personality, excellent voice, and her talk was instructive and beneficial. Offering an opportunity for interested mothers to ask questions, a general discussion concluded the morning attraction.

Yesterday a party including Misses Ruby Gissendaner, Ellen Clarkson, Bessie McKissack, Mary Wyatt Galbraith, Annie Atkinson, Mrs. S. T. Sistrunk, Messrs. J. M. Thomas, W. B. Gallagher, T. D. Lancaster, Jr., and Robert Clarkson motored to the Fairy Island orange grove to spend the day. The grove is about thirty miles south of Ocala, near the Withlacoochee river and is the property of Mr. Thomas and Mr. Reynolds M. Cook of Atlanta. The magic name whets the anticipation of a prospective visitor but the realization of the natural beauties of the grove far exceeds any anticipation. Stately palms and giant oaks tower above the beautiful citrus trees and the grove, 35 acres, is in the heart of a dense forest. The trees are golden with fruit which will be removed soon and the blooms are rapidly coming out.

The Eastern Star sewing circle will meet Wednesday afternoon at 3:30 o'clock with Mrs. R. E. Yonge.

Mr. and Mrs. W. B. Turner and a party of friends were visitors today, motoring down from Micanopy.

Miss Emma Van Zandt and sister, Mrs. Teo. Gano, for the past few days have been members of a houseparty in Daytona. En route they made the trip from Jacksonville by water with friends. At present Mrs. Gano is in Deland for a short visit to friends.

Mrs. Edward Holder and Miss Alice Bullock left yesterday for Lakeland to spend several days.

A local physician was called to Inverness today to the bedside of Mr. Kelley. Mr. Kelley is a brother-in-law of Mr. William Dale, of Gainesville, having married Miss Bonnie Dale.

The Star regrets to say that Miss Mae Stein is very sick with an attack of the grip at her home on South Third street.

Mrs. John Boisseau and her pretty little daughter left Sunday for a visit to relatives in Gainesville.

Mr. and Mrs. T. S. Trantham, whose marriage was a beautiful event of February 25th, after a brief visit to Mrs. Trantham's parents, Mr. and Mrs. R. B. Bullock, left Saturday night for their home in Tallahassee. For a while they will board, later going to housekeeping.

FACES OR GRACEFUL FIGURES

American girls have a world-wide reputation for beauty, but at the same time there are girls in our cities who possess neither beauty of face nor form, because in these instances they suffer from nervousness, the result of disorders of the womanly organism. Of course, if our daughters are weak, their effect on the nervous system. LIKED GOOD OLD FLINTLOCK

At First That Form of Firearm Was Preferred to Samuel Colt's Invention.

It is now just 100 years since the birth of Samuel Colt, who in 1827 shipped before the mast as a sailor lad on the ship *Colt*, bound from Boston to Calcutta. While on that voyage he whittled out the wooden model of a revolving pistol, says the *Advance*. In 1835 he went abroad again, this time to secure patents in foreign countries for his new pepper-box gun. Then he returned to America and tried to interest the government of the United States in a weapon which could be loaded on Sunday and shot all the week. But he had no immediate success in the endeavor. The officers of the army frowned upon it. It would not do. To be sure, it shot, and shot, and shot, six times; but it used the new percussion cap and not the good old reliable flint.

It would not do to indorse a gun which depended on anything less reliable than the good old flint. The old-time flintlock was good enough for them. It was good enough for Washington, was good enough for grim old Hickory, for Tippecanoe and Tyler too, and good enough for them. Had it not served our country in the past? And of course, if we are to expect that the future could be saved otherwise? So Colt and his new six-shooter gun met with little favor in Washington.

But Mr. Colt learned the secret of nitrous oxide and went around the country as "Doctor Colt," giving lectures and administering "laughing gas" to his audiences, and he took in a barrel of money and built a factory and made his revolvers and sold them and grew rich and gave Hartford a park.

Two men secured parks for Hartford, Horace Bushnell, who, having no money, preached and pleaded an stirred up public sentiment till the people taxed themselves to buy a park, and Samuel Colt, who sold so many revolvers that he had to get rid of his money in some way—Bushnell's park and Colt park—there they are!

It was the laughing gas that secured the money, but often it has been no laughing matter. For every now and then somebody has gotten in front of a Colt revolver at the wrong time and something has happened to him.

On July 19 Hartford celebrated the one hundredth anniversary of the birth of Samuel Colt. A medal was struck and 500 of these were distributed in honor of the man who invented the revolver. If we knew who invented the flintlock, he, too, might well deserve a medal. But what about the men who would not believe in the revolver because it did not use a flintlock? Is there anyone who proposes a medal for them?

Yet the good old flintlock has a glorious place in American history.

Hotels the Same the World Over.

An American hotel manager has spent seven weeks touring the European hotels—which is all that some seekers after pleasure can accomplish without being paid for it. Says the hotel man:

"I made my first acquaintance with 'platters' eggs, which I was told cost something like a dollar apiece, and a few other dishes not common to bills of fare over here, but in general I found that the eating in hotels was pretty much on the same lines as what constituted a first class hotel in Europe
